## Hp laptop motherboard replacement cost

Something went wrong. Wait a moment and try again. Your account also allows you to connect with HP support faster, access a personal dashboard to manage all of your devices in one place, view warranty information, case status and more. @Nikethana We are not able, or permitted, to provide any repair estimates or equipment prices -- but I can tell you that motherboard replacements, if available, generally cost as much as replacing the laptop. For this information, you would need to contact an HP Repair or Service Center. Since you live outside the U.S., here is a link to HP Service Centers, by Country/Region: that link does not provide you sufficient information, then use the main HP link: found those links to be unreliable if you're using Win10 and the new Edge Browser; so if you are, you need to use something else, like FireFox. Good Luck I am a volunteer and I do not work for, nor represent, HP
